

Family Group Night is a free monthly gathering for families on their journey with autism or other similar disabilities. This group is not diagnosis specific, and is open to families living in Henderson and surrounding counties. Each event includes a free family style meal served by volunteers, time for parents and caregivers to connect & create community with those who have a unique understanding of their day to day challenges. During these roundtables and/or workshops, St. Gerard Center for Autism staff & volunteers provide supervision and age appropriate activities for family members in need of supportive care in a separate room.
